

INSTALLATION GUIDE

**CTS TURBO B58TU/B58C BMW/SUPRA INTAKE RESONATOR
DELETE**

CTS-HW-546

WHAT IS INCLUDED

1. Intake resonator delete

NOTES

Always make sure the car is safe to work on. Do not work on a hot motor.

STEP 1

Locate the airbox.

**STEP 2**

Disconnect the electrical connector for intake sensor.

STEP 3

Release the clips from the top of the air box.

STEP 4

Remove the top of the air box.

STEP 5

Remove the screw that attaches the resonator to the air box lid.

STEP 6

Unclip the resonator.

STEP 7

Ensure the oring stays on the air box lid.

We recommend using oring grease or WD40 to help assist the install.

STEP 8

It will take some effort to get it fully seated.

We recommend using a plastic pry tool to ensure the resonator delete is fully seated over the retraining edges.

Reinstall the airbox lid and intake electrical sensor.

You are done!
