

## INSTALLATION GUIDE

CTS TURBO A90/A91 TOYOTA SUPRA RIDE HEIGHT LEVELING  
BRACKET

CTS-SUS-2009

## WHAT IS INCLUDED

1. Headlight leveling bracket
2. Hardware

## NOTES

Always make sure the car is safe to work on. Do not work on a hot motor.

## STEP 1

Remove the plastic cover on the left rear of the vehicle.

## STEP 2

Locate the ride height leveling sensor.

### STEP 3

Using a pick tool gently push the plastic clips up to release the bracket.

### STEP 4

To remove the plastic bracket . You need to rotate the ball end till you see the flat section and it should pop out without that much force required.

## STEP 5

To install the CTS bracket we recommend adding some grease to help with the install.

## STEP 6

Install with the provided bolts and nuts.

You insert the bolt from the top and thread the nut from underneath

Reinstall the plastic cover and you are done!
